Missed Appointment and Cancellation Policy

We require 24 hours notice for cancellation of appointments. As we have set aside the full appointment time for you, if you cancel without adequate notice, or if you do not arrive for our appointment you will be billed for the full amount. If you arrive late for your appointment, this may decrease the length of your session, in order to respect the next patient's scheduled appointment time.

I have read, understood, and had opportunity to discuss the Missed Appointment and Cancellation Policy.

My signature below indicates my understanding of all of the above information.
